

AVENUE BIKE RACK

shown with royal blue (g) powdercoated
steel finish with optional placard

Classic design with a twist. The Avenue bike rack features a customizable placard for promoting whatever you see fit. Advertise your company or business, attract attention to your institution or park, or simply create unity in your city or town. The Avenue is available in a multitude of colors and textures allowing it to seamlessly blend into your streetscape. The Avenue is also available without a customizable placard for a minimal and modernist look. Constructed of durable steel, the Avenue bike rack stands up to changing weather conditions and offers a maintenance-free operation. Fully welded features and solid construction prevents the bike rack from being cut or disassembled. Multiple locking points allows riders to fully secure the frame and both wheels.

installation & maintenance

Units come preassembled and ready for installation. Tamper-proof stainless steel mounting hardware is provided to securely anchor product in place. Powdercoated surfaces can be cleaned using a clean, soft, non-abrasive cloth with warm water and mild detergent. Other commercially available all-purpose cleaners such as Simple Green ® can be used to clean and protect all surfaces. Denatured alcohol and a clean, soft, non-abrasive cloth can be used to clean oils left on all stainless steel surfaces. Commonly available cleaners such as Weiman ®, Zep ®, 3M ®, Simple Green ®, and other stainless steel cleaners can also be used to clean and protect all stainless steel surfaces. Avoid abrasive cleaners and cleaners containing chlorine on all surfaces.

specifications subject to change without notice

These are the standard material and finishing options we offer for customization. Every component can be customized to suit your vision. The modularity lends itself to multiple and exciting design configurations that can be tailored to an individual's taste. For options such as powdercoating, give us a call - we have an array of colors to choose from. If you have a unique finish or exotic material in mind for a certain component that we do not list, let us know and we may be able to implement it into your design.
