

SNUB ASH URN

Freestanding Snub shown with powdercoated black (g) aluminum lid, powdercoated black (g) aluminum body, and painted white (sg) lid graphics

Snub is a cigarette disposal unit designed for high-end environments. With a minimal footprint and design, Snub can be integrated into any environment with little visual impact. Available in many powdercoat colors, materials, and finishes allows Snub to match existing architectural elements. Snub is available as a freestanding unit, wall mounted, or a retrofit application onto an existing trash receptacle. For servicing wall mounted and retrofit applications, simply rotate the body and remove it from the lid. For servicing freestanding units, rotate the lid and remove the internal liner. All components are metal to fully extinguish cigarettes. Snub is also available with a keyed lock to deter unauthorized access and vandalism.

installation & maintenance

Units come preassembled and ready for installation. Tamper-proof stainless steel mounting hardware is provided to securely anchor product in place. Powdercoated surfaces can be cleaned using a clean, soft, non-abrasive cloth with warm water and mild detergent. Other commercially available all-purpose cleaners such as Simple Green ® can be used to clean and protect all surfaces. Denatured alcohol and a clean, soft, non-abrasive cloth can be used to clean oils left on all stainless steel surfaces. Commonly available cleaners such as Weiman ®, Zep ®, 3M ®, Simple Green ®, and other stainless steel cleaners can also be used to clean and protect all stainless steel surfaces. Avoid abrasive cleaners and cleaners containing chlorine on all surfaces.

specifications subject to change without notice

These are the standard material and finishing options we offer for customization. Every component can be customized to suit your vision. The modularity lends itself to multiple and exciting design configurations that can be tailored to an individual's taste. For options such as powdercoating, give us a call - we have an array of colors to choose from. If you have a unique finish or exotic material in mind for a certain component that we do not list, let us know and we may be able to implement it into your design.
