

STELLA TRASH RECEPTACLE

shown with crimson red (g) powdercoated  
steel body and perforated steel .2500 dia x  
.5000 str ctr fill panels

Our most durable trash receptacle. Stella is able to stand up to everyday abuse in any setting with a fully welded heavy gauge frame and customizable steel fill panels. We are able to custom cut into the fill panel your company's logo, town or city name, custom patterns, or leave it solid. We also have a wide array of perforated patterns available for a clean and simple look. Available in our wide array of powdercoat colors and galvanized finishes allows Stella to mesh with existing environmental and architectural elements. A rigid 32 gallon plastic liner provides ample space for collecting refuse. Liners have a rolled continuous handle that makes removal a breeze. Receptacles are serviced by removing the lid and pulling the liner straight out through the top. A central anchor and 4 separate levelers ensure proper and secure installation.

installation & maintenance

Units come preassembled and ready for installation. Tamper-proof stainless steel mounting hardware is provided to securely anchor product in place. Powdercoated surfaces can be cleaned using a clean, soft, non-abrasive cloth with warm water and mild detergent. Other commercially available all-purpose cleaners such as Simple Green ® can be used to clean and protect all surfaces. Denatured alcohol and a clean, soft, non-abrasive cloth can be used to clean oils left on all stainless steel surfaces. Commonly available cleaners such as Weiman ®, Zep ®, 3M ®, Simple Green ®, and other stainless steel cleaners can also be used to clean and protect all stainless steel surfaces. Avoid abrasive cleaners and cleaners containing chlorine on all surfaces.

specifications subject to change without notice

These are the standard material and finishing options we offer for customization. Every component can be customized to suit your vision. The modularity lends itself to multiple and exciting design configurations that can be tailored to an individual's taste. For options such as powdercoating, give us a call - we have an array of colors to choose from. If you have a unique finish or exotic material in mind for a certain component that we do not list, let us know and we may be able to implement it into your design.

Need to find out how much your design will cost? Just fill out the estimation form and you will be contacted to discuss your project. If you have a unique finish or exotic material in mind for a certain component that we do not list, fill in the appropriate field with the manufacturer's product code or a short description. Components listed as optional are not required to have a complete product. Have multiple designs in mind? Just fill out and fax or email a seperate form for each configuration.
