

WILKINS TRASH RECEPTACLE

shown with grass green (g)
powdercoated steel finish

Simple, effective, modern. The Wilkins trash receptacle is a robust and attractive solution to public space litter collection. Ideally suited for cities and towns requiring maximum value and minimum upkeep. A central anchor and 4 separate levelers ensure proper and secure installation. Receptacles are constructed of fully welded steel with a durable 44 gallon plastic liner. Add your own padlock to our specially designed latch for an added layer of security. Available in an array of powdercoat colors and textures allows the Wilkins to be fused into any setting. We also offer custom placards to advertise your company or business, attract attention to your institution or park, or simply create unity in your city or town.

installation & maintenance

Units come preassembled and ready for installation. Tamper-proof stainless steel mounting hardware is provided to securely anchor product in place. Powdercoated surfaces can be cleaned using a clean, soft, non-abrasive cloth with warm water and mild detergent. Other commercially available all-purpose cleaners such as Simple Green ® can be used to clean and protect all surfaces. Denatured alcohol and a clean, soft, non-abrasive cloth can be used to clean oils left on all stainless steel surfaces. Commonly available cleaners such as Weiman ®, Zep ®, 3M ®, Simple Green ®, and other stainless steel cleaners can also be used to clean and protect all stainless steel surfaces. Avoid abrasive cleaners and cleaners containing chlorine on all surfaces.

specifications subject to change without notice

These are the standard material and finishing options we offer for customization. Every component can be customized to suit your vision. The modularity lends itself to multiple and exciting design configurations that can be tailored to an individual's taste. For options such as powdercoating, give us a call - we have an array of colors to choose from. If you have a unique finish or exotic material in mind for a certain component that we do not list, let us know and we may be able to implement it into your design.
